Healthy living – certified.

“I won't compromise my principles. When I buy something, I want to be sure it comes from sustainable sources. So I checked out KronoOriginal® floorings and found out they use timber from responsibly managed forests. I trust them because, being one of the world's leading manufacturers of laminate flooring, they have a sustainability policy which commits them to reducing their impact on the environment. Which means I can update my home with renewable materials.”

K267 [SUPER NATURAL CLASSIC]

Only wood from sustainably managed forests. Resource-efficient production.
All of this amounts to an expression of a love that goes beyond numerical values:
our love of nature.
